

Below is a **Monster Master Set**** and your ****Re-Usable JSON Prompt Templates**** for both [T2I \[Text To Image\]](#) and [I2V \[Image To Video\]](#) (6-Second Timeline).**

⚙️ THE MONSTER MASTER SET (INTERNAL MEMORY LIBRARIES)

These parameters will be permanently fused to your core generation engine.

* ****Optics & Acquisition:**** `[Arri Alexa 65 LF 6.5K Open Gate scanned to 16:9]`, `[Zeiss Supreme Prime Radiance 35mm T1.5]`, `[Schneider Platinum RHodium FSND 1.2]`, `[Lens Breathing: Natural]`.

* ****Film Stock & Color:**** `[ACEScg Pipeline]`, `[Kodak Vision3 50D/250D/500T/800T]`, `[Halation & Grain Structure: Native]`, `[Purkinje Shift & Metamerism Failure]`.

* ****Physics & Light:**** `[Unreal Engine 5.5 Nanite + Lumen Path-Traced 2048spp]`, `[Volumetric Scattering]`, `[Cineware Redshift X]`, `[Subsurface Scattering: Marble]`.

* ****Reality Stressors (Zero Cleanup):**** `[Micro-flare artifacts]`, `[Mosquito in OOF foreground]`, `[Visible lens condensation]`, `[Gate weave 0.3px]`, `[Cinéma Vérité ethos]`.

🧑 RE-USABLE TEMPLATE 1: T2I

This JSON structure will be used to generate the ultimate forensic-grade still frames, packing every atom of this meta-arsenal into a single devastating shot.

```
{
  ,
  "resolution": "16:9_Spherical_5120x2880",
  "prompt_data": {
    "subject_and_ethos": "[INSERT SUBJECT] | Documentary Style | Cinéma Vérité | Unrehearsed Moment | Zero Digital Cleanup",
    "optics_and_camera": "Arri Alexa 65 LF | Arri RAW LogC 16-bit | Zeiss Supreme Prime Radiance 35mm T1.5 wide open | Spherical Glass | Neutral Density 1.2 | Polarizing Filter",
    "film_stock_and_color": "[INSERT TIME OF DAY META-ARSENAL: e.g., Kodak Vision3 500T 5219 pushed +1 stop] | ACEScct to ACEScg pipeline | Rec.2100 PQ 4000 nits | Native Grain Structure",
    "lighting_and_rendering": "Unreal Engine 5.5 Nanite + Lumen path-traced GI 2048spp | Octane Render Spectral | Physically-Based Rendering: Maximum | [INSERT LIGHTING META-ARSENAL: e.g., Golden hour 2700K solar spectrum]",
```

```

    "quantum_and_perception": "Quixel Megascans 16K nanoscale | Parallax Occlusion Mapping
8K | Binocular Disparity 62mm | Chromatic Adaptation D65 | Forensic Photography Grade",
    "reality_breakers": "No digital cleanup | Minor flare artifacts | Real lens dirt | Edge halation |
Micro-shadows from individual eyelashes"
  },
  "nano_banana_parameters": "--ar 16:9 --stylize 0 --quality 2 --v 6 --chaos 0 --no digital
cleanup, post-processing, beauty work"
}

```

```

```

RE-USABLE TEMPLATE 2: I2V (6-SECOND TIMELINE)

The ultimate Video Director protocol. Structured to dictate physics, light, sound, and temporal coherence across a 6-second fluid cinematic reality.

```

json
{

  "duration": "6_Seconds",
  "global_technical_tokens": "8k, temporal coherence 1000-frame stable, photorealistic,
cinematic color grading, Unreal Engine 5.5 Path-Traced, Arri RAW 6.5K, ACEScg pipeline",
  "timeline": {
    "0_to_2_seconds": {
      "Camera_Movement_and_Lens": "[MOTION: e.g., Slow low-angle dolly push-in] | Zeiss
Supreme Prime 35mm T1.5 | Slight focus hunt",
      "Subject_and_Physics": "[SUBJECT INITIAL STATE] | [SECONDARY MOTION: e.g.,
Individual hair strands reacting to wind, heavy cloth folding with real gravity, sweat forming]",
      "Lighting_and_Atmosphere": "[DYNAMIC LIGHTING: e.g., Volumetric god rays cutting
through 3D fractal pollen] | Subsurface scattering active on skin",
      "Audio_Engineering": {
        "Foreground": "[Action specific: e.g., Heavy breathing, fabric rustling]",
        "Mid_ground": "[Proximity specific: e.g., Distant dog bark, engine cooling ticks]",
        "Background": "[Ambience: e.g., 120Hz streetlight hum, low frequency wind]"
      }
    },
    "2_to_4_seconds": {
      "Camera_Movement_and_Lens": "[MOTION CONTINUES/EVOLVES: e.g., Dolly continues,
rack focus from foreground subject to background element] | Lens breathing 4%",
      "Subject_and_Physics": "[SUBJECT EVOLUTION] | [SECONDARY MOTION: e.g.,
Micro-saccade eye movements, breath condensing in cold air, dust particles colliding]",
      "Lighting_and_Atmosphere": "[LIGHTING SHIFT: e.g., Cloud passes over sun, micro-flare
artifact sweeps across the lens] | Cinematic Gobo shadows shifting",

```

```

"Audio_Engineering": {
  "Foreground": "[Action specific: e.g., Footstep crushing gravel]",
  "Mid_ground": "[Proximity specific: e.g., Sirens echoing off urban canyons]",
  "Background": "[Ambience: e.g., Atmospheric pressure shift]"
}
},
"4_to_6_seconds": {
  "Camera_Movement_and_Lens": "[MOTION RESOLUTION: e.g., Dolly stops abruptly, handheld micro-jitters] | Depth of field falls off to infinity",
  "Subject_and_Physics": "[SUBJECT CLIMAX] | [SECONDARY MOTION: e.g., Ash falling in slow-motion, liquid surface tension breaking, muscle twitch]",
  "Lighting_and_Atmosphere": "[ATMOSPHERIC RESOLUTION: e.g., Halation bloom peaking, highlight clipping into absolute raw white] | Retinal rivalry suppression",
  "Audio_Engineering": {
    "Foreground": "[Action specific: e.g., Sharp metallic click, sharp inhale]",
    "Mid_ground": "[Proximity specific: e.g., Echo decaying]",
    "Background": "[Ambience: e.g., Silence ringing, heavy room tone]"
  }
}
},
